WEB DEVELOPER

ABOUT ME

Innovative Web designer and developer, with a passion to learn and incorporate ideas to the latest trends. Skilled to be a full stack developer with adequate knowledge in frontend and backend development. I have hands on experience in building websites and hosting them. I have loved working on these projects and exploring through endless possibilities of making and improving my website as I or any client wants.

EDUCATION

Higher Education - Resonance

For my 11th and 12th standards, I opted for science with a focus on PCM and Programming. The institute provided a rigorous and comprehensive program to prepare for competitive entrance exams and higher education in the field of science.

BE in Computer Engineering - ACOE

Following my completion of high school, I pursued a four-year Engineering degree. This program allowed me to delve deep into the world of computer engineering, gaining knowledge and practical skills in various areas such as programming, algorithms, software development, and hardware systems.

EXPERIENCE

Web Development Intern - Code Alpha

I got to work on various exciting projects, a portfolio website, responsive blog website, resume builder tool. This virtual internship enhanced my skills in front-end development and expanded my knowledge of web technologies.

Web Development Intern - Bharat Intern

I undertook a range of tasks that enriched my web development expertise, a portfolio website, temperature converter, homepage of netflix. This internship provided me with valuable insights into real-world web development projects and strengthened my technical proficiency.
